

Ninja Tag

The Ninja Tag is specifically designed for advanced security of boxed merchandise and is easy for your employees to use. It boasts faster application and removal by an authorized detacher than any other EAS box tag, and can be equipped with up to four alarm levels to safeguard against theft or tampering.

Four Security Levels:

Features:

- ◆ Tag easily inserts into plastic base
- ◆ No cables required, making the Ninja fast and easy to apply
- ◆ Plunger on the bottom detects when the tag is resting against a surface
- ◆ Boxes can be arranged in an aesthetically-pleasing manner due to Ninja's sleek and unobtrusive design
- ◆ Detachment at point-of-sale is fast and easy
- ◆ Alarms when tampered with or illicitly removed
- ◆ Alarms when entering an EAS detection field
- ◆ Triggers the alarm of any 58kHz EAS System
- ◆ Optional fourth alarm prevents removal without a patented WG IR detacher

Arms with the flip of a switch, disarms quickly with proper detacher!

Measurements:

Height: 0.55" / 14mm

Length: 2.47" / 62.77mm

Width: 1.96" / 49.85mm

Tag Tray adds about 0.065" / 1.66mm in height.

Complete protection, no cables!
