

# Floor Guard™

58 KHz Invisible Ultra Wide Exit Protection System

**Floor Guard** is a 100% invisible EAS detection system, ideal for high end retailers who are looking for top-of-the-line security and protection while maintaining a customer-friendly atmosphere without the obtrusiveness of pedestals. The EAS antennas are buried into the floor of the store exit and customizable to adapt for varying ranges of coverage. Ideal for stores with wide exits.

***AN INVISIBLE SYSTEM IS VISIBLY BETTER!***

- Ultra compact antenna design allows for installations at multiple story establishments, i.e. malls and department stores
- Integrated sealed antenna structure
- Pure floor system without extra antennas around the perimeter
- Convenient LCD display for tuning the system
- Controller capable of being conveniently installed up to 600 feet away (183 meters)
