

WG Multi-Detacher User Guide

WG Multi Detacher

WG's Multi-Detacher is compatible with all WG 3 alarm smart tags, standard passive tags, and Alpha tags as well.

The base is typically screwed into the counter

Lock and Unlock the Multi-Detacher

The Multi-Detacher can be locked to protect the magnet core and prevent unauthorized use of the Multi-Detacher.

Locking the Multi-Detacher

Put the handle on the base, then turn the lock on the side of the base to the lock-position with the key as shown.
